Sarah Smith
Manager, Chief Data Office
United States Postal Service OIG

Sarah Smith is a graduate of Radford University and began her career applying analytics with the Microstrategy Corporation. Sarah has worked at numerous government entities over the last 11 years including the Postal Service and Veterans Affairs. She is currently a manager for the Chief Data Office, Data Analytics Division which supports analytics within the U.S. Postal Service Office for Inspectors General. Sarah has extensive experience with advanced data analytics and business intelligence and holds various certifications in Microstrategy. She is also well versed in other analytical tools such as SSRS, Tableau, and Qlik. Recently, Sarah was responsible for setting up the first ever OIG Microstrategy lab environment within the Postal Service network, which will lead to advanced analytics and speed of data discovery.
